

AGENDA

COVERED ELECTRONIC WASTE (CEW) STAKEHOLDER WORKSHOP

RESIDUAL CRT GLASS MARKETS, REGULATORY CHANGES, AND THE CEW RECYCLING PROGRAM

Wednesday, March 13, 2013

9:00 a.m. – 1:00 p.m.

Coastal Hearing Room Cal/EPA Headquarters Building

1001 I Street, Sacramento

The primary focus of this workshop is to explore the evolving marketplace for residual CRT glass, the impacts of new CRT management rules for the handling and treatment of CRTs and CRT glass in California, and potential changes to the covered electronic waste (CEW) recycling system rules in light of these realities. The format for the workshop will feature a panel of experts representing recyclers, downstream vendors, advocates, and regulators.

The workshop will allow stakeholders to discuss the evolution of the CEW recycling payment system in context of markets for residual CRT glass and changes in CRT glass management regulations. An issue paper has been posted to the workshop website (see below), which is intended to serve as a starting point for discussion. A series of questions and topics have also been posed to panelists, and they have been asked to be prepared to respond. Panelists and the audience will be encouraged to interact.
